

Business Phone Made Easy

A small business solution designed with your bottom line in mind

A SMALL BUSINESS SOLUTION WITH MUSCLE

Cymbus business services offers flexible voice options that will scale and grow with your needs. Too often, small business phone solutions are packed with advanced features that are never used. They add cost and complexity when all you really need is the phone to ring.

Business Lines cloud phone solution is designed to be streamlined, delivering exactly what you need.

Simplified Configuration

Quickly set up call flows.

Cloud Hunt Group

Never miss a call – to all available lines, including your cell phone.

Quick Forwarding with Short-Codes

Easily forward calls to an assigned number.

Shared Cloud Voicemail (Optional)

Your customers can always connect, even when you may not be available.

Voicemail to Email

Return calls quickly by accessing your voicemail messages from your inbox.

Virtual Lines

One main number for your customers that can be sent to multiple phones at your business.

Benefits

- Keep the same phone number(s)
- Unlimited nationwide calling
- No additional equipment is required, you can use your existing phones
- Bundle your internet with cloud phone and save even more
- We're local - no need to have an IT expert on staff. One team to support your internet and voice needs
- One service provider means one bill

Business Phone Made Easy

A small business solution designed with your bottom line in mind

All Your Business Needs In One Place

87% of SMBs would prefer to purchase phone and cloud communications from their broadband provider, if the VoIP features met company requirements.

Independent Research, 2020 & 2021 SMB Survey

HOW DO I KNOW THAT BUSINESS LINES ARE RIGHT FOR ME?

- ✓ If you like the simplicity and configuration of your current phone system, and are looking to save money
- ✓ If you are currently using analog phones or an obsolete key system
- ✓ If you do not want to purchase additional equipment or change the handsets you are currently using
